Version 2.118.1.149
Release Date: March 28, 2025
CYRISMA Version 2.118.1.149 feature releases and updates

Fixes in User Experience and Functions

Compliance

HIPAA Compliance Assessment - Updated regulatory references and improved content accuracy.

Dark Web

Dark Web Monitor Results - Added a "View All" button to easily return to the full list of breach results after filtering.

MSP

Central Vulnerability Manager - Improved backend logic and UI for smoother performance and better usability.

Report Builder

Compliance & Duration Reports - Fixed a typo in the "Next Steps" placeholder text.

Dark Web Reports - Improved formatting, data accuracy, and layout consistency.
